

## Fully automatic coffee machine

## The most compact and energy efficient fully automatic coffee machine with cappuccino and flat white at the push of a button

Espresso, black coffee, cappuccino and flat white at the push of a button – the Finessa Milk Plus satisfy every desire of coffee lover.

But it's not just the quality of the brewed coffee that inspires, the machine is also the most compact (only 18 cm wide) and the most energy efficient fully automatic coffee machine with a milk solution.

The simple and intuitive handling, the attractive cup lighting and 3 different operating modes round off the machine.

| Feature   | Benefit   |  |
|---|---|--|
| A machine for all types of coffee                       | Ideal for black coffee, espresso as well as<br>cappuccino and flat white. Thanks to hot water<br>function, also suitable for americano.<br>Cup volume programmable from 25 to 250 ml. |  |
| Energy efficiency                                       | The most energy efficient fully automatic coffee machine with an automatic milk solution.   |  |
| Milk container (0.6 liter, BPA-free)<br>Rinsing program | Particularly hygienic as no milk gets into the<br>machine. Rinsing program for cleaning hoses and<br>spouts.  |  |
| Hot water function                                      | Thanks to the separate outlet, it is ideal for making tea. Also for americano and to preheat cups.  |  |
| Patented brewing unit                                   | Compact, removable for easy cleaning. Also with pre-<br>brewing function for a perfect crema.   |  |
| Ready to use in less than 15 seconds                    | Ready to use very quickly, which is especially important in the morning with your first coffee.   |  |
